

# BENEFITS OF CAPSULES

Easy to dose and long-acting.

Patients report 6-8 hours of symptom relief.

Ideal for overnight symptom management.

Available in both THC and CBD-rich.

## TIPS TO KNOW

Capsules have an onset  
of **1-2 hours**.

As with all cannabis products,  
**start low and go slow.**

Ask your Patient Service Associate for additional details.

# BENEFITS OF TINCTURES

Tinctures can be microdosed drop-by-drop.

Can be used in conjunction with capsules for breakthrough symptom management.

Made with MCT coconut oil.

Available in both THC and CBD-rich.

## TIPS TO KNOW

Tinctures have an onset  
of **5-30 minutes**.

As with all cannabis products,  
**start low and go slow.**

Ask your Patient Service Associate for additional details.
